"We Will Never Forget" 9/11

September 11, 2001: Nineteen terrorists from al-Qaeda hijacked four commercial airplanes, deliberately crashing two of the planes into the upper floors of the North and South Towers of the World Trade Center complex and a third plane into the Pentagon in Arlington, Virginia. The Twin Towers ultimately collapsed because of the damage sustained from the impacts and the resulting fires. After learning about the other attacks, passengers on the fourth hijacked plane, Flight 93, fought back, and the plane was crashed into an empty field in western Pennsylvania about 20 minutes by air from Washington, D.C.

The attacks killed 2,977 people from 93 nations: 2,753 people were killed in New York; 184 people were killed at the Pentagon; and 40 people were killed on Flight 93.

Keeping Cool

Now that warmer weather is here, most of you will begin to rely on your air conditioning. Here are a few things to keep in mind:

- Do not turn your air conditioner off while you are away. While your A/C is off, your home will heat up and your cooling unit will have to run twice as long to cool when turned back on.
- Try to keep your thermostat at a constant temperature. Raising and lowering the temperature increases the amount of work the unit has to do. An ideal temperature setting is around 72 degrees.
- Keep your blinds closed as much as possible, especially if you are on the south side of a building. Sunlight alone will easily raise the temperature in your home 10-15 degrees.
- Make sure windows and doors are fully closed.
- Remember that any air conditioning unit is designed to cool approximately 15 degrees cooler than the outside temperature. So, when the temperature outside reaches 98 degrees, your home cannot realistically be cooled to 68 degrees.

Save on Your Electric Bill

Watch out for energy vampires – appliances and electronics that stay on and running, even when you are not using them. Put them all on one power strip and flip the switch off at one time. It will help you save on your electric bill. Remind your spouse and kids to turn off the lights when they leave a room, or unplug lights, TV cords, or video game consoles before bed. Eventually, it will become a habit and you will notice the difference when your bill comes.

Dear Guest & Residents,

Our season is almost here. As we continue to grow and build for a bigger and better community, this year I ask you for a favor. I ask that you help us encourage all of our friends and neighbors to our events. We have a great core group of fulltime residents and ambassadors, it is you that can help raise the bar and give the extra nudge they may need to get out and involved in our community.

Community Manager

Dear Friends,

Please when looking for a package or mail...check your box first.

If it is small enough to fit, it is easiest for us to put it there to save space.

We know everyone has asked about Amazon lockers, we are still working with them to be qualified.

P.S

We understand you may be waiting on something important, but allow us some time from when you receive your notification of delivery, to sort through everything.

Thank you,
Staff

988 SUICIDE & CRISIS
LIFELINE

September is Suicide Awareness Month

#BeThe1To Help Save a Life

Dear Guests and Residents,

September marks Suicide Prevention month across the world and serves as an opportunity for us to connect with you regarding this important matter. Through the past few years our lives have been disrupted by COVID-19, social distancing, and unprecedented economic challenges making it more important than ever to reach out to those around us and take steps to prevent suicide. While we'll use this month to increase knowledge and combat the stigma around suicide, we want to also shed light on resources readily available to anyone in need.

1. **The 988 Lifeline** - This new shorter phone number will make it easier for people to remember and access mental health crisis services.
2. **Veteran Suicide Prevention** - We know that many of our guests and residents are Veterans. The VA offers many resources and evidence-based therapies to help treat suicide-related thoughts and behavior specifically for Veterans.
For more information visit www.mentalhealth.va.gov/suicide_prevention/prevention
3. **Suicide Prevention Speakers**- Be on the lookout for upcoming events in your resort or community featuring Suicide Prevention Speakers from the DAV and other various agencies.
4. **Resort/Community Events** - We will have table displays with suicide prevention resources and information at certain resort and community events.

As the complex mental health needs of our guests and residents continue to be a top priority, we'd also like to ask for your help by familiarizing yourselves with the warning signs of suicide, including:

- Increased alcohol or drug use
- Aggressive behavior
- Withdrawal from friends, family, and community
- Dramatic mood swings
- Impulsive or reckless behavior

Lastly and most importantly, talk to the people in your life and let them know that they are important. Let them know they have a network of support, care, and love. We can all benefit from honest conversations about mental health and suicide because even one conversation may change a life. Together, we can make a difference and we are here to help.

Sincerely,

Deborah Ann Weber
Director of Risk Management

Home of the Month

Richard and Teresa, though they are here house hunting the Heyden's have been great residents and such a joy to stop and talk with. Always coming out to enjoy whatever we have going on. We will be sad (but happy) the day they find their new forever home. The pink flamingos help make this our home of the month.

Surprise & Delight

Melissa Vanderloo, you and your family are such a joy to have in our community. Knowing some of your history, you friend are the Surprise and delight, better yet you are an amazing definition of strength. We are so happy to have your whole family reunited again. Thank you for being here with us~
